Thank you for taking the time to fill out this application for treatment at the William Alanson White Institute. Our goal is to match you as quickly as possible with a therapist; we will process your completed application within one week. Please note that treatment is by appointment only and we are unable to offer crisis intervention. If you need an immediate consultation, we recommend that you contact your local hospital emergency center.

Beginning psychotherapy is a big step and we would like to make the process as comfortable as possible. There are some limitations to our clinic that are important to know in helping you decide whether to seek treatment here. Our fees are adjusted to help people with financial limitations, and we have a sliding scale to cover out of network insurance. Unfortunately, we cannot accept Medicaid, Medicare, or managed care plans (although we do have a list of Institute graduate therapists who accept Medicare and managed care). Since our facilities are limited, we cannot see everyone who applies, and we may have periods when our waiting time for a therapist may be too long for your needs. If we cannot assign you a clinic therapist, we will provide you with other referrals. Please know that our inability to match you with a therapist is not a reflection of your ability to benefit from treatment.

WAWI abides by HIPAA privacy guidelines. This means that after we receive your application, we will treat it with extreme care to protect your privacy. As an applicant, you may email your application with the understanding that email is not a private or secure system.

Email application to Leila Sosa, our Clinic Administrator, at l.sosa@wawhite.org or send through postal mail to:
